## June–September 2019

- London / 14 June
- Manchester / 21 June
- Birmingham / 19 September

# DIALS

2019 DIABETES LEARNING SERIES

Don't miss this free meeting on key aspects of diabetes management in primary care

### The full-day programme will include:

- ▶ An update and review of the latest management guidance
- ▶ An overview of pancreatic exocrine insufficiency and its role in diabetes
- ▶ Practical recommendations for the use of insulin biosimilars in diabetes management
- ▶ Masterclass options in aspects of injection use in diabetes

## Register for your FREE workshop

Limited free places available for GPs, nurses and pharmacists working in diabetes

[mimsworkshops.co.uk/diabetesseries](http://mimsworkshops.co.uk/diabetesseries)

\*The CPD credit award (4 learning credits) is recommended by MIMS Workshops for GPs and nurses based on attendance of the full meeting programme and reflecting on what attendees have learned. If you spend less time, we recommend claiming fewer credits. For pharmacists this qualifies as a planned learning activity  
Date of preparation: February 2019; CRE-2019-0042
